6. (Internal Use Only - GMC) LIAISON Received a call from House International Relations Subcommittee on International Organizations staffer Sue Slotnick who said that she had been the recipient of an unjustified parking ticket during her visit to Headquarters on 24 August. I told Ms. Slotnick that I did not believe there was very much that could be done for her, but I did take the details of the incident and I promised to see if any remedy was available.

7. (Internal Use Only - GMC) LIAISON Took a call from Paul O'Connell, on the staff of the Morgan-Schmitt Senate Select Committee on Ethics Subcommittee, who had a question in connection with the Subcommittee's investigation of the Senate Select Committee on Intelligence oil study leak. He wanted to know whether we had been aware of New York Times reporter Seymour Hersh's interest in the SSCI oil paper prior to his publication of an article on this subject on 21 December 1977, and if so whether we had informed the SSCI of this fact. I reminded O'Connell that we had already checked the records of the Office of Public Affairs on this point and had communicated the results of that check to him. He asked, however, whether OLC's [redacted] may have been in contact with the SSCI. After having a review made of [redacted] Journal entries for the period in question, I called O'Connell back and told him that the only record we had of such contact being made by [redacted] was on the morning after publication of Hersh's article. I told O'Connell that I would ask Don if he had any further recollection on this point when he returned from vacation. (Note: There has been considerable previous consultation and exchange of correspondence between us and the Subcommittee with regard to the Subcommittee's investigation of the SSCI oil study leak.)
